MUSIC AND COLOR WITH A BIONIC TOUCH

Batucada LED Maracuyá

Fran Marín is the soul of this
Batucada Led formation. Percusionist
musician and performance lover, he
has created a wonderful visual and
auditory show which he wanted to
share with us.

During our conversation, Fran tells us, among so many other things, how he was introduced to music, recalls how he became interested in the africobrasilian culture and what he thinks the future holds for him. He is really excited about taking this new music project of Batucada everywhere.

Colored led lights and the rythm of

Colored led lights and the rythm of the afro-latin sounds [...] Imagine a great number of musicians, all of them wearing a vest of led lights, dancing and playing the music in unison.

the afro-latin sounds are mixed and blended to provide entertainment and music to any event or show. Imagine a great number of musicians, all of them wearing a vest of led lights, dancing and playing the music in unison. It's a party that uplifts the mood and spreads good vibes.

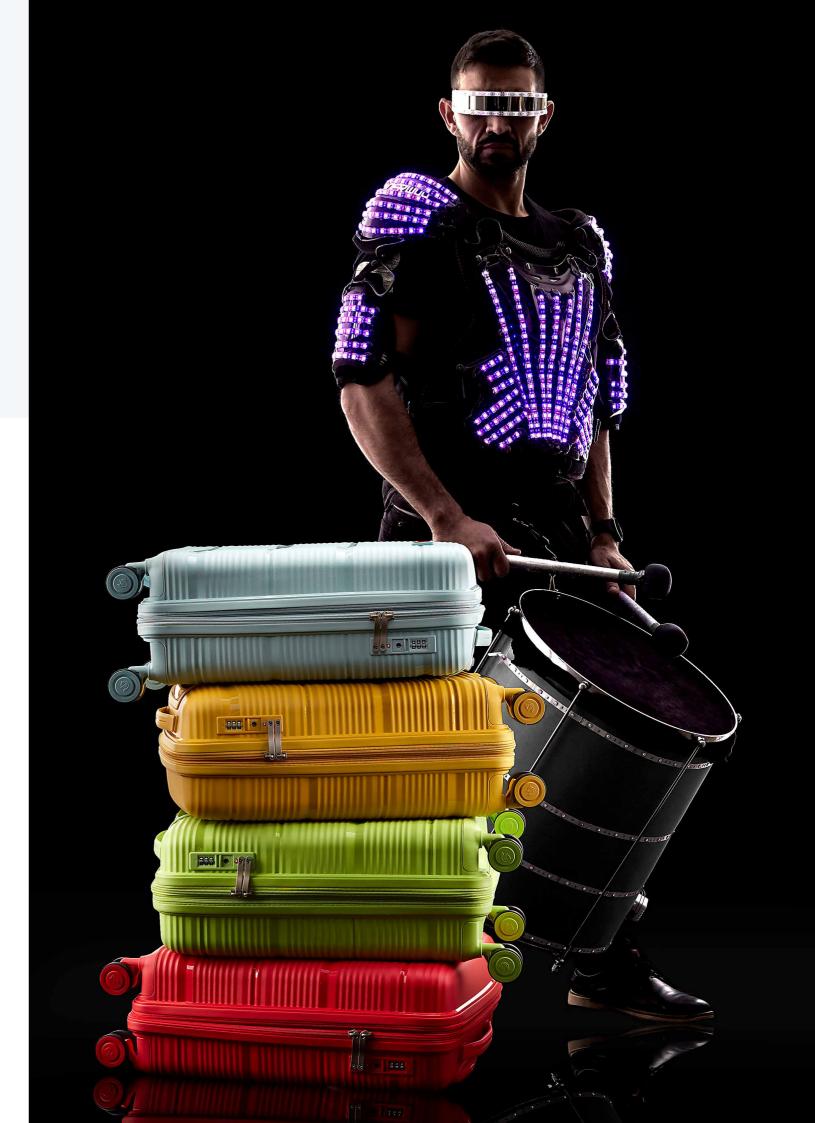

They also host Batucada workshops for businesses. A kind of team-building activity with a music theme. They work with different instruments (mostly brasilian drums, like the repinique, tamborim, etc.) Every section of the percussionists will have a guide and they'll learn the importance of every

component of the group and their coordination in order to get the expected final result which all of them are aiming for.

This percussion workshop consolidates the enthusiasm of the group, their predisposition for working together, learning about motivation and the ability to listen to each other and coordinate.

"We love the new colors of the Bionic collection. They are bright, innovative and atractive. They are just perfect for us to travel with them and our led vests"

Together with La Galeta Percussió and Maracuyá, they've had appearances in TV shows like *Operación Triunfo* and *Número*

They also perform shows in many other countries outside of Spain: they've recently been to France, Italy, etc.

"We love traveling! I never let go of my instrument while traveling. But because it exceeds the cabin allowed dimensions for carry-on luggage I have to buy an additional seat just for it. That's how I travel with my surdo (my instrument), side by side, with one boarding pass for it and one for myself. And I fasten its seatbelt" Fran explains.

"We love traveling! I never let go of my instrument while traveling. But because it exceeds the cabin allowed dimensions for carry-on luggage I have to buy it a seat.

"Currently, what we are really looking forward to, more than recording our own songs, it's to schedule and book new concerts and experiences. "Truth be told, Batucada Maracuyá is a project that allows me to enjoy music to the maximum and it helps in sharing my ideas in a very direct way with the public at the same time. If we can bring something to the people, there we go, with a drive to shake every corner of the planet".

"Don't let the rhythm stop!" - shouts Fran enthusiastically while he rehearses.

iPioners, we are a team!

#proudtobeapioner

It's Wednesday, a cold and damp afternoon. Jacobo has been working all day and combines his job with the training at the Hospitalet Pioners.

They train 3 days a week, adding to the gym sessions, so they are physically prepared. It's a very demanding sport, one must be strong to play it. A knock with another player could break you anything. That is not something Jacobo explains but something that all of us are thinking while we do the shooting.

The Pioners team started in 1988, in Hospitalet de Llobregat city, becoming, together with the Badalona Dracs, Bracelona Búfals and Barcelona Boxers (now extinct), the pioneers in this sport in Spain. That's where their name came from. The four teams together put up the first official competition ever played in Spain, the Catalan American Football League in 1988, and the Pioners got the third position in the finals.

"The best suitcase we could own is the Gladiator Kick-off trolley. It's just as us, resistant, hard and durable... and elegant [...]"

Jacobo and his team mates are now playing the National American Football Leage, in the A series, the highest category. Which means that they have to travel often to play all around the country: "The best suitcase we could own is the Gladiator Kick-off trolley. It's just as us, resistant, hard and durable... and elegant, but maybe that last thing is not something we have in common..." they say jokingly.

"If you look closely, you'll notice that the suitcase design is inspired by the shape of an american football ball" they say as they put on their black eye routine in their faces. That's a grease which is applied as a rectangular patch just below the eyes, from the cheeks to the

cheek bone, in order to block any shining from the lights or sun.

Iván Falcón is another player in Jacobo's team. He plays in the Spanish national team of American Football: the Team Spain. And he was the runner-up in last year's national team match agains Italy in the European Championship. He is an autistic person and he loves this sport and it also helps him.

Jacobo, Iván and all the team members really live and enjoy this sport. Now it's time to start the match.

¡Kick-off and let the game begin!

Palmarés

- Winner of the National American Football League in Spain in 2005, 2008, 2010, 2011, 2012 y 2013.
 Runner-up in 1998, 2003, 2004 y 2006.
- Winner of the Spain's Cup in 2000, 2005, 2006, 2008, 2010, 2011, 2012, 2013 y 2014. Runner-up in 1997, 1998 y 2007.
- Runner-up in the EFAF Cup in 2013

EXPANDABLE ON ALL SIZES

DOUBLE WHEEL

Tech and emotion

An expandable suitcase, light and made with the most resistant material in the market: recyclable polypropylene of the latest generation. Furthermore, it goes with a matching beauty case in the same material.

This collection wil fulfill the expectations of the most demanding traveller. It expresses the uttermost elegance in its design and colours. Bionic is technology but it is also organic, it's resistant but delicate in its form, lightweight but sturdy.

Bionic offers you the superpower of travelling with ease and securely using one of the best suitcases right now. And being respectful with the environment. Bionic is not just a suitcase, it is the suitcase.

DOUBLE WHEEL WITH SUSPENSION

First ROUND

BOXING is the strongest suitcase on the market. Made of Polypropylene, Boxing is light and hard as a stroke of Muhammad Ali. In several colours to choose from, it has a sporty but elegant design: the surface plays with the matt and the bright.

Apart from being an indestructible suitcase, it is expandable in all 3 sizes, so there is always a little more space. Its 4 double wheels make it move smoothly on any terrain. It is the ideal suitcase for long trips or for those seeking resistance. It is ready to endure all your adventures and you will get bored of it before it breaks. In a 10-round, BOXING would win.

WATER RESISTANT ZIPPER

DOUBLE WHEEL

Sail, run, fly

Ocean is made of high-quality polypropylene: light-weight, super resistant and flexible. The best qualities to make your suitcase the best travel companion: lightness helps to load the suitcase and handle it comfortably, the flexibility of the material absorbs the possible shocks of the trip and the polypropylene gives it a great resistance.

Water dropwave engraving is a homage design to the oceans that make up most of the earth's surface. In addition, these waves provide greater resistance to scratches. The inverted zipper prevents the entering of water in case of rain, and it's also more effective in the face of possible theft attempts. The wheels are incredibly quiet and sturdy, well-designed and very compact giving great stability and

Oceans are the heart of our planet.

DOUBLE WHEEL

The touchdown of luggage

American football fosters character in the player, creates self-confidence, discipline, commitment, teamwork, camaraderie, loyalty, physical and mental dedication (even exceeding their own limitations) and a well-founded pride, among other values. This suitcase shares all these qualities: it has character, resistance and it will become your faithful travel companion. You will always travel as a team.

Expandable in three sizes and with a design made to withstand the most daring adventures.

Kick off the journey!

INTERIOR LINING MADE OF RECYCLED PLASTICS

DOUBLE WHEEL

A mediterranean suitcase

A suitcase that is inspired by the sea. By the art of sailing. The Mediterranean has been and is a sea with history, a sea of brave travelers who crossed its waters.

This suitcase is a tribute to the sailor traits. Robust and resistant with four double wheels and a recycled interior lining.

Every year 570,000 tons of plastic end up in the Mediterranean, the equivalent of dumping 33,800 plastic bottles into the sea every minute (source: WWF).

This suitcase gives plastic water bottles a second life by transforming them into the inner lining that protects your belongings. To obtain this recycled polyester fabric, bottles are collected and transformed

Resistant as a beetle

Beetles are incredibly resistant to extinctions and this suitcase made of ABS material is too. Our designers, after working many days, draw on a piece of paper the sketch of what would be a great step towards the future for all travel enthusiasts.

"The inspiration comes from beetles", they tell us, "their shell is very tough and protective, and we think that this is what all travellers need". This insect is also agile, so who wouldn't want to have both qualities when travelling?

Extreme adventures

Polar bears spend most of their lives on the sea ice of the Arctic Ocean.

A backpack trolley and a bag with wheels with measurements suitable for cabin luggage, a bag with wheels of greater capacity, a large bag and another with the right size to carry as hand luggage on low-cost companies such as Vueling.

A whole collection at the service of the most intrepid traveler. Polar is practical and urban, wild and confident. Made with a waterproof material, it allows you to transport your belongings safely and comfortably. Like polar bears that have a thick layer of body fat, a waterproof coating insulates them from air and cold water.

You can take it on a trip to the highest mountain or for a walk through the

The TRICK collection is the most urban, functional Gladiator collection. A soft trolley made of DOBBY material to add ultra resistance. You can fill it with its large volume, easily load it with souvenirs, and when you don't use it, it's very easy to store: it can be folded up and it occupies less space than a conventional suitcase.

Trick does have a trick and its informal line hides spectacular interior finishing. Double divider, interior pockets, elastic straps ... make it a pleasure to pack.

This collection also incorporates a bag with wheels with an ideal size for the gym locker and a department for shoes.
